WPC DECKING WOOD

Wood Plastic Composite - Decking Wood

Available colour: Red & Teak

Size 2200mm x 150mm x 24mm

WPC products have natural appearance, long life, light weight, low maintenance, no warping, no rotting, no trip hazards, corrosion/electrical resistance, low tooling/installation cost, long service life, no splintering, UV stable.
The materials will not warp, rot or splinter like natural wood it makes for very rapid installation. The range of bespoke fixing systems ensures consistent gapping to suit permanent or removable requirements. The range can be supplemented with railing and pergola, produced from the same recyclable materials to suit specific project needs.

Philippines' trusted distributors of wood-alternative composite decking and cladding materials.
