FOLDABLE FISH TANK (RC900L)

Model: **RC900L**

Fish Tank

- Formed of synthetic rubber
- PVC pipe accord with national standard used for fish farm, aquaculture, and koi show.
- Easy to assemble
- Movable and transferable to anywhere you want!
- No more breaking your back moving bulky and heavy through tanks!
- Nontoxic, food grade, UV resistant, ant oxidative, thermostable, cold resistant.
- Stretch-Proof, resistant to stripping, antibacterial, acid & alkali resistant.
- Durable and Non-Distortable
- 3-ply nontoxic rubber synthetic fibre PVC with screen mesh for added protection.
- In case of accidental, ex. knife puncture etc. repair kit is available
  It can house various fishes like barramundi / silver perch /mulloway/ koi / snapper / eel / golden perch/sleepy cod /catfish.

Classification: **Rectangular Tank**

Size (cm): **150 x 110 x 60 cm**

Volume (in cubic meter): **.9 m^3**

Volume (Liters): **900 L**

Price: **₱15,500.00**

Price: ₱15,500.00
Category: Fish Tanks

FOLDABLE FISH TANK (RC1500L)

Model: **RC1500L**

- Classification: **Rectangular Tank**
- Size (cm): **150 x 150 x 60 cm**
- Volume (Liters): **1500 L**

Product Specifications:

- Formed of synthetic rubber
- PVC pipe accord with national standard used for fish farm, aquaculture, and koi show.
- Easy to assemble
- Movable and transferable to anywhere you want!
- No more breaking your back moving bulky and heavy through tanks!
- Nontoxic, food grade, UV resistant, ant oxidative, thermostable, cold resistant.
- Stretch-Proof, resistant to stripping, antibacterial, acid & alkali resistant.
- Durable and Non-Distortable
- 3-ply nontoxic rubber synthetic fibre PVC with screen mesh for added

RC140L (STAINLESS STEEL RECTANGULAR PVC FISH TANK)

Introducing the RC140L Rectangular Tank – a sleek and efficient solution for your aquatic projects. Crafted with a combination of stainless steel and PVC, this tank provides a durable and modern design suitable for a variety of applications. With a volume of 140 liters and a convenient 1" drain valve outlet, the RC140L is a versatile choice for aquaculture, fish farming, and other aquatic endeavors.

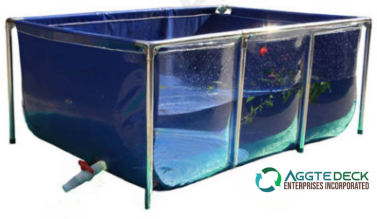

- Model: **RC140L**
- Dimension: **80 x 50 x 35 cm**
- Classification: **Rectangular Tank (Stainless Steel Rectangular PVC Fish Tank)**
- Volume: **140 Liters**
- Outlet: **1" Drain Valve**

The RC140L Rectangular Tank is designed with practicality in mind. Its stainless steel and PVC construction not only ensures durability but also adds a modern aesthetic to your aquatic setup. The tank's rectangular shape, measuring 80 x 50 x 35 cm, allows for easy integration into various spaces, making it suitable for home aquariums, aquaculture facilities, or research environments.

With a generous volume of 140 liters, this tank provides ample space for aquatic life to thrive. The 1" drain valve outlet enhances convenience in water management, allowing for easy drainage or water changes. This feature is particularly beneficial for maintaining a clean and healthy environment in both freshwater and saltwater setups.

The RC140L Rectangular Tank is a versatile and reliable choice for aquarists and professionals alike. Whether you are cultivating fish, aquatic plants, or conducting research, this tank offers a practical and efficient solution. Elevate your aquatic projects with the RC140L Rectangular Tank and experience the ease of maintaining a thriving aquatic environment.

RC1200L (STAINLESS STEEL RECTANGULAR PVC FISH TANK)

Introducing the RC1200L Rectangular Tank – an exceptional choice for aquatic enthusiasts and professionals seeking a robust and spacious solution for their projects. With its stainless steel and PVC construction, this tank is designed for durability and versatility, making it ideal for various applications, including aquaponics systems. The RC1200L offers a substantial volume of 1,200 liters, a convenient 1" drain valve outlet, and generous dimensions of 200 x 100 x 61 cm.

- Model: **RC1200L**
- Dimension: **200 x 100 x 61 cm**
- Classification: **Stainless Steel Rectangular PVC Fish Tank**
- Volume: **1,200 Liters**
- Outlet: **1" Drain Valve**

The RC1200L Rectangular Tank is crafted with a combination of stainless steel and PVC, ensuring durability and a sleek appearance. Its rectangular shape and dimensions of 200 x 100 x 61 cm provide ample space for aquatic life, making it an

Aquaponics Go Green Trading & Enterprise

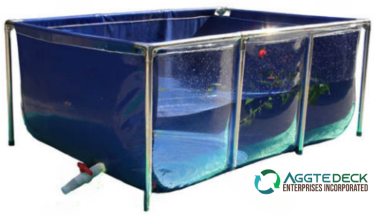

excellent choice for both hobbyists and professionals.

This tank's significant volume of 1,200 liters accommodates the needs of various aquatic projects, from large-scale fish farming to intricate aquaponics systems. The 1" drain valve outlet enhances convenience in water management, facilitating easy drainage and water changes.

Application for Aquaponics System:
The RC1200L Rectangular Tank is specifically designed to meet the demands of aquaponics systems. Its generous volume allows for the cultivation of a diverse range of plants and fish in a symbiotic environment. In an aquaponics setup, the nutrient-rich water from the fish tank circulates through the planting beds, providing essential nutrients for plant growth. The plants, in turn, help filter and purify the water, creating a balanced ecosystem.

Whether you are a seasoned aquaponics enthusiast or a beginner looking to explore sustainable and integrated farming practices, the RC1200L Rectangular Tank provides the perfect foundation for a thriving aquaponics system. Elevate your aquaponics experience with the reliability and versatility of the RC1200L Rectangular Tank.

RC3190L (STAINLESS STEEL RECTANGULAR PVC FISH TANK)

Presenting the RC3190L Rectangular Tank – a versatile and capacious solution for aquatic enthusiasts and professionals alike. With its durable stainless steel and PVC construction, this tank stands as an exceptional choice for various applications, including aquaponics systems. Boasting a generous volume of 3,190 liters, a convenient 2" drain valve outlet, and dimensions measuring 300 x 150 x 71 cm, the RC3190L is designed to meet the diverse needs of aquaculture and sustainable farming practices.

- Model: **RC3190L**
- Dimension: **300 x 150 x 71 cm**
- Classification: **Stainless Steel Rectangular PVC Fish Tank**
- Volume: **3,190 Liters**
- Outlet: **2" Drain Valve**

Application for Aquaponics System:

The RC3190L Rectangular Tank serves as an excellent foundation for aquaponics systems, offering a spacious environment for cultivating both aquatic plants and fish. With its substantial volume, this tank allows for the creation of a thriving ecosystem where fish waste provides essential nutrients for plant growth, and the plants, in turn, help filter and purify the water, creating a sustainable and balanced aquaponics setup.

The 2" drain valve outlet enhances the efficiency of water management, facilitating easy drainage and water changes in the aquaponics system. Whether you're a seasoned aquaponics enthusiast or a farmer looking to embrace sustainable agriculture, the RC3190L Rectangular Tank provides the durability and versatility needed to support a flourishing aquaponics environment.

Elevate your aquaponics endeavors with the RC3190L Rectangular Tank – a reliable and spacious solution designed to meet the demands of integrated and sustainable
