

CPF-180 POND BIO FILTER

Product Details:

- Model: **CPF-180**
- Dimension: **(L*W*H): 410*380*405**
- Inlet and Outlets : **3/4 to 1 ¹/²**
- Filter Capacity in Liters: **8L**
- Crystalline filter area in m² : **70/50 mm**
- Power of UV Lamp: **11W**
- Voltage: 220-240/50Hz
- Max Flow-Through: **12000L/h**
- Cable Length : **5m**
- Weight: **6kg**

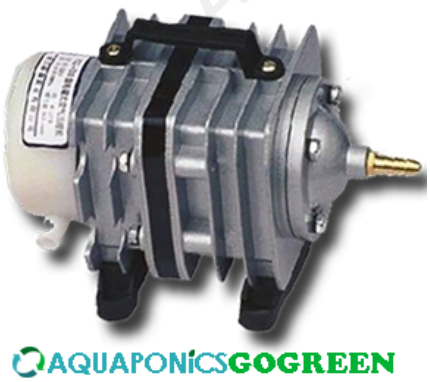

Introducing the new generation Bio pressure pond filter CPF-180, the perfect solution for keeping your pond water crystal clear. Equipped with an indicator for pollution, this easy-to-use and uncomplicated bio-pressure pond filter system ensures optimum development of biological pond filter and guarantees high flow rates.

Our system is specially designed to provide quick and reliable results, thanks to the different filter materials such as special filter foams, which effectively remove germs and bacteria from the water. With an integrated 11 W UVC-Pond Clarifier, this pond filter combines both mechanical and biological cleaning processes.

Microorganisms accumulate on the filter materials, while floating particles and dirt remain in the pond filter by means of mechanical filtering. This prevents them from returning to the pond water, ensuring your pond stays clear and healthy.

Invest in the Bio pressure pond filter CPF-180 today and enjoy the benefits of a clean and healthy pond.

Price: ₱9,795.00
Category: Pond Bio Filter

SUNSUN ACO-006 220VOLTS ELECTROMAGNETIC AIR PUMP FOR AQUARIUM | FISH TANK | KOI POND | SALT WATER TANK

Product Details:

- Model: **ACO-006 Air Pump**
- Power: **105W**
- Voltage: **220V/60Hz**
- Output: **85L/min.**
- Pressure: **0.04MPa**

Price: ₱3,933.00
Category: 220V Air Pump

AQUAPONICSGOGREEN

SUNSUN JTP-16000 220 VOLTS SUBMERSIBLE AQUAPONICS | AQUARIUM | HYDROPONICS WATER PUMP

- High efficiency and energy saving device.
- Compact design
- Applicable to both fresh and salt water.
- Easy to operate.
- Adjustable water flow maximizes the filtration and sterilization effect.
- Suitable for high-grade fish tanks and ponds.

JTP-16000 Water Pump

- Power: **140W**
- Output: **16000L/h**
- H-max: **7.5m**

Price: ₱10,615.00
Categories: JTP 220V Water Pumps, Water Pumps

SUNSUN CLP-20000P 220V FREQUENCY VARIATION PUMP | SUBMERSIBLE PUMP | AQUAPONICS

Product Features:

- Energy-saving, high performance, low noise.
- Variable frequency technique, with four pole frequency variation motor.
- High-strength ceramic shaft long service life
- Both for fresh and seawater.

Product Description:

- Model: **CLP-20000P**
- Power: **200W**
- Output: **20000L/h**
- H-max: **9.5m**

Price: ₱12,705.00
Categories: CLP Water Pumps, Water Pumps
